Hi David,

As part of our ongoing investigation, we have notified customers whose Verkada systems were accessed by the attackers.

If you have not been contacted, we want to let you know that currently available evidence shows no access to your organization's image or video data by the attackers.

It is important to note that our investigation remains ongoing and we have engaged a third-party firm, Mandiant, to conduct their own investigation. If we discover that your organization's image or video was accessed, we will notify you promptly.

As part of our commitment to ongoing transparency, over the next 3 months, Verkada CEO Filip Kaliszan will be hosting a series of weekly live webinars.

To sign up for our first webinar, visit: <https://www.verkada.com/webinars/ask-filip-anything/>

Kyle Randolph  
CISO, Verkada
