Hi Pete,

As you have probably noticed by now, last week we unveiled a new Command update. This brought streamlined navigation and UI to the platform. Hopefully, so far everything has gone smoothly for you and your team.

We will be hosting an upcoming webinar this Thursday (April 15th at 10am PT / 1pm ET). If you and your team would like to join to see what has changed, as well as get introduced to some of our integrations with access control and environmental sensors, you can sign up here:

<https://www.verkada.com/cmd-update/>

If you would rather just jump on a call, I would also be happy to set up 15 minutes for us to go through the platform 1:1. Just let me know a time that works!

Best,  
Juliana
