All,

This is the reference to the required overdose notification that I spoke about at the EPLE today. This is specific to the 18th but applies across all judicial districts. Hope this helps.

Thanks,
Mike

All,

In the first week of this required reported, we had 15 reports of ODs and 2 deaths. Thanks to all who are sending reports. So far we have only received reports from ACSO, DCSO, Englewood and Lone Tree, which I assume means that word has not gotten out about the law. Please send reports for any ODs occurring after July 1, 2022, as the new law requires.

We're trying to figure this out as we go along. Here are some of the good questions I've gotten, along with my answers:

Q: Does all discovery need to be sent to ODnotifications@DA18.state.co.us, or just the initial report?

A: Just the initial report. We can follow up if we need additional information, or go into the actual criminal filing if an arrest was made.

Q: Will CAD notes suffice?

A: Yes, unless an arrest was made.

Q: Does this reporting requirement apply to both fatal ODs and non-fatal ODs?

A: Yes.

Q: Does this apply to alcohol and THC as well as opioids?

A: Yes.

Commanders,

Please be aware of yet another new law regarding fentanyl that goes into effect on July 1. It requires all police responses to emergency overdoses be reported to the DA's Office. A summary of the requirement is below, and the language of the new law is quoted after that.

In order to facilitate these reports to the DA's Office, we have created the following email address:

ODNotification@da18.state.co.us

Please call Intake at 720-874-8541 if you have any questions.

I'm sending this to just one or two commanders in each agency in the hope that you will get the word out to your detectives and patrol.
