Date of Incident: Tues. 11/23/2021

Time of Incident: 3:30 P.M.

LIC: DS

Brief Description of Incident: Security was alerted to a commotion adjacent to the main floor restroom. Upon entering the area a W/M was observed being assisted by a W/F trying to get him to stand up straight. He was incoherent at times and his speech was unintelligible laced with profanity. MFD was summoned as the female stated he was having an anxiety attack. He was spoken to earlier and seemed to be in a normal state and his abnormal behavior seemed to take place after he had used the restroom. I suspected illegal drug activity as also the female panicked when I called for assistance. All the way out of the library he was ranting and heaving himself on the floor. This continued outside and down the front steps. MFD made contact with subject.

Description of Subject: See pics.
