STUDENT CONDUCT

The standards of student conduct are designed to define the basic rules and major expectations of students in the public schools of **NORTHAMPTON COUNTY**. It is the responsibility of the **NORTHAMPTON COUNTY** School Board to adopt policy and regulations and the administration to issue regulations establishing rules of conduct for student behavior in order to protect the health, safety and welfare of its students. The local school principal has the responsibility and authority to exercise reasonable judgment in enforcing this Code of Conduct. Principals are responsible for ensuring that all students, staff members, and parents are provided the opportunity to become familiar with this policy.

The superintendent issues Standards of Student Conduct, and a list of possible corrective actions for violation of the Standards of Conduct. Each parent of a student enrolled in a public school has a duty to assist the school in enforcing the standards of student conduct and compulsory school attendance in order that education may be conducted in an atmosphere free of disruption and threat to persons or property, and supportive of individual rights. The Standards of Student Conduct, a notice of the requirements of VA. Code § 22.1-279.3 and a copy of the compulsory school attendance law is also sent to all parents within one calendar month of the opening of schools simultaneously with any other materials customarily distributed at that time. A statement for the parent's signature acknowledging the receipt of the Standards of Student Conduct, the requirements of Va. Code § 22.1-279.3, and the compulsory school attendance law is also sent. Parents are notified that by signing the statement of receipt, they are not deemed to waive, but expressly reserve, their rights protected by the constitution or laws of the United States or Virginia. Each school maintains records of the signed statements.

The school principal may request the student's parent or parents, if both have legal and physical custody, to meet with the principal or principal's designee to review the School Board's Standards of Student Conduct and the parent's or parents' responsibility to participate with the school in disciplining the student and maintaining order, to ensure the student's compliance with compulsory school attendance law, and to discuss improvement of the child's behavior, school attendance, and educational progress. The administrator of the building should exercise reasonable judgment and consider the circumstances in determining the disciplinary action to be administered.

Each student has the right to expect an educational environment in which he or she can strive to achieve his or her intellectual potential. The student is expected to attend school regularly, be diligent in his/her studies and conduct him/herself in such a way that the rights and privileges of others are not violated. The student is expected to accept and demonstrate the obligation of good citizenship to help prevent problems from happening and help solve problems if they occur.

All parents are expected to assume responsibility for the student's behavior and assist the school in enforcing the Standards of Student Conduct and compulsory school attendance. Parents are also expected to maintain regular communication with school authorities, monitor and require daily attendance, and bring to the attention of the school authorities any problem that affects the student or other children in the school. It is the parents' responsibility to notify the school of any unusual behavior pattern or medical problem that might lead to serious difficulties.

The school principal may notify the parents of any student who violates a School Board policy or the compulsory school attendance requirements when such violation could result in the student's suspension or the filing of a court petition, whether or not the school administration has imposed such disciplinary action or filed such a petition. The notice shall state (1) the date and particulars of the violation; (2) the obligation of the parent to take actions to assist the school in improving the student's behavior and ensuring compliance with compulsory school attendance; (3) that, if the student is suspended, the parent may be required to accompany the student to meet with school officials; and (4) that a petition with the juvenile and domestic relations court may be filed under certain circumstances to declare the student a child in need of supervision.

The principal or principal's designee notifies the parent of any student involved in an incident required to be reported to the superintendent and Virginia Board of Education.

No suspended student shall be admitted to the regular school program until such student and his parent have met with school officials to discuss improvement of the student's behavior, unless the school principal or his designee determines that readmission, without parent conference, is appropriate for the student.

If a parent fails to comply with the requirements of this policy, the School Board may ask the Juvenile and Domestic Relations Court to proceed against the parent in accordance with the requirements of the Code of Virginia.

Students are subject to corrective action for any misconduct that occurs:

- in school or on school property;
- on a school vehicle;
- while participating in or attending any school sponsored activity or trip;
- on the way to and from school; and
- off school property, when the acts lead to: (1) notification pursuant to Va. Code § 16.1-305.1 or a conviction for an offense listed in Va. Code § 16.1-260 or (2) a charge that would be a felony if committed by an adult, or (3) disruption of the learning environment.

Unlawful acts which will lead to police notification and may lead to suspension from classes, exclusion from activities, or expulsion include but are not limited to:

- possession or use of alcohol, illegal drugs, including including marijuana, and anabolic steroids, or drug paraphernalia;
- selling drugs;
- sexual assault;
- arson;
- intentional injury (bullying, fighting);
- theft;
- bomb threats, including false threats, against school personnel or school property;
- use or possession of explosives (see Policy JFCD Weapons in School);
- possession of weapons or firearms (see Policy JFCD Weapons in School);
- extortion, blackmail, or coercion;
- driving without a license on school property;
- homicide;
- burglary;
- sex offenses (indecent exposure, obscene phone calls, sodomy and child molestation);
- malicious mischief;
- shooting;
- any illegal conduct involving firebombs, explosive or incendiary devices or materials, hoax explosive devices or chemical bombs;
- stabbing, cutting or wounding;
- unlawful interference with school authorities including threats;
- unlawful intimidation of school authorities; and
- other unlawful acts including being an accessory to any of these or other unlawful acts.

Any student involved in a reportable drug or violent incident shall participate in prevention and intervention activities deemed appropriate by the Superintendent or superintendent's designee. Further, any student who has been found to be in possession of or under the influence of drugs or alcohol on school property or at a school sponsored activity may be required to (1) undergo evaluation for drug or alcohol abuse and (2) participate in a drug and/or alcohol treatment program if recommended by the evaluator and if the parent consents.

The superintendent issues regulations listing additional actions which may be cause for corrective action and if serious enough or exhibited repeatedly may lead to suspension or expulsion.

The School Board biennially reviews the model student conduct code developed by the Board of Education to incorporate into policy a range of discipline options and alternatives to preserve a safe and non-disruptive environment for effective learning and teaching.

SUSPENSIONS AND EXPULSIONS OF STUDENTS GENERALLY / DUE PROCESS REQUIREMENTS

Pupils may be suspended or expelled from attendance at school for sufficient cause; however, in no case may sufficient cause for suspension include only instances of truancy.

Any student for whom the superintendent has received a report pursuant to Va. Code § 16.1-305.1 of an adjudication of delinquency or a conviction for an offense listed in subsection G of Va. Code § 16.1-260 may be suspended or expelled from school attendance.

The authority of teachers to remove students from their classes in certain instances of disruptive behavior shall not be interpreted to affect the operation of this Policy.

SHORT-TERM SUSPENSIONS

A pupil may be suspended for not more than ten school days by either the school principal, any assistant principal, or, in their absence, any teacher. The principal, assistant principal, or teacher may suspend the pupil after giving the pupil oral or written notice of the charges against him and, if he denies them, an explanation of the facts as known to school personnel and an opportunity to present his version of what occurred. In the case of any pupil whose presence poses a continuing danger to persons or property, or whose presence is an ongoing threat of disruption, the pupil may be removed from school immediately and the notice, explanation of facts, and opportunity to present his version shall be given as soon as is practical thereafter.

Upon suspension of any pupil, the principal, assistant principal, or teacher responsible for such suspension reports the facts of the case in writing to the superintendent or superintendent's designee and the parent of the pupil suspended. The superintendent or superintendent's designee reviews forthwith the action taken by the principal, assistant principal, or teacher upon a petition for such review by any party in interest and confirms or disapproves such action based on an examination of the record of the pupil's behavior.

The decision of the superintendent or superintendent's designee may be appealed to the School Board Discipline Committee.

Any oral or written notice to the parent of a student who is suspended from school attendance for not more than ten days includes notification of the length of the suspension, information regarding the availability of community-based educational programs, alternative education programs or other educational options, and of the student's right to return to regular school attendance upon the expiration of the suspension. The costs of any community-based educational program, or alternative education program or educational option, which is not a part of the educational program offered by the school division, are borne by the parent of the student.

LONG-TERM SUSPENSION

A pupil may be suspended from attendance at school for more than ten days after written notice is provided to the pupil and his parent of the proposed action and the reasons therefor and of the right to a hearing before the School Board Disciplinary Committee. The Disciplinary Committee may confirm or disapprove the suspension. If the Disciplinary Committee's decision is not unanimous, the pupil or his parent may appeal the Disciplinary Committee's decision to the full School Board. Such appeal shall be decided by the School Board within thirty days.

The written notice of a suspension for more than ten days includes notification of the length of the suspension and provides information concerning the availability of community-based educational, alternative education, or intervention programs. Such notice also states that the student is eligible to return to regular school attendance upon the expiration of the suspension or to attend an appropriate alternative education program approved by the school board during or upon the expiration of the suspension. The costs of any community-based educational, alternative education, or intervention program that is not a part of the educational program offered by the school division that the student may attend during his suspension is borne by the parent of the student.

Nothing herein shall be construed to prohibit the school board from permitting or requiring students suspended pursuant to this section to attend an alternative education program provided by the school board for the term of such suspension.

EXPULSION

A. Generally

Pupils may be expelled from attendance at school after written notice to the pupil and his parent of the proposed action and the reasons therefor and of the right to a hearing before the school board Disciplinary Committee in accordance with the regulations of the school board.

The School Board Disciplinary Committee may confirm or disapprove the expulsion of a student. If the committee's decision is not unanimous, the pupil or his parent may appeal the committee's decision to the full school board. Such appeal shall be decided by the school board within 30 days.

The Committee confirm or disapproves of proposed expulsions regardless of whether the pupil has exercised the right to a hearing.

The written notice given to the pupil and his parent includes notification of the length of the expulsion and provides information concerning the availability of community-based educational, training, and intervention programs. The notice states whether or not the student is eligible to return to regular school attendance, or to attend an appropriate alternative education program approved by the school board, or an adult education program offered by the school division, during or upon the expiration of the expulsion, and the terms or conditions of such readmission. The costs of any community-based educational, training, or intervention program that is not a part of the educational program offered by the school division that the student may attend during his expulsion shall be borne by the parent of the student.

Nothing in this Policy shall be construed to prohibit the school board from permitting or requiring students expelled pursuant to this Policy to attend an alternative education program provided by the school board for the term of such expulsion.

If the school board determines that the student is ineligible to return to regular school attendance or to attend during the expulsion an alternative education program or an adult education program in the school division, the written notice also advises the parent of such student that the student may petition the school board for readmission to be effective one calendar year from the date of his expulsion, and of the conditions, if any, under which readmission may be granted.

The school board establishes, by regulation, a schedule pursuant to which such students may apply and reapply for readmission to school. Such schedule is designed to ensure that any initial petition for readmission will be reviewed by the Disciplinary Committee or the superintendent, and, if granted, would enable the student to resume school attendance one calendar year from the date of the expulsion. If the superintendent or the Disciplinary Committee denies such petition, the student may petition the school board for review of such denial.

Conduct Giving Rise to Expulsion

Recommendations for expulsions for actions other than those specified below are based on consideration of the following factors:

- the nature and seriousness of the conduct;
- the degree of danger to the school community;
- the student's disciplinary history, including the seriousness and number of previous infractions;
- the appropriateness and availability of an alternative education placement or program;
- the student's age and grade level;
- the results of any mental health, substance abuse, or special education assessments;
- the student's attendance and academic records; and
- other appropriate matters.

No decision to expel a student shall be reversed on the grounds that such factors were not considered. Nothing in this subsection precludes a school board from considering any of the factors listed above as "special circumstances" for purposes of expulsions discussed in the following subsections.

Firearms

The school board shall expel from school attendance for a period of not less than one year any student whom the school board has determined to have possessed a firearm on school property or at a school-sponsored activity as prohibited by Va. Code § 18.2-308.1, or to have possessed a firearm or destructive device as defined in this policy, a firearm muffler or firearm silencer, or a pneumatic gun as defined in this policy on school property or at a school-sponsored activity. A school administrator, pursuant to school board policy, or the school board may, however, determine, based on the facts of a particular situation, that special circumstances exist and no disciplinary action or another disciplinary action or another term of expulsion is appropriate. The School Board may promulgate guidelines for determining what constitutes special circumstances. In addition, the School Board may, by regulation, authorize the superintendent or superintendent's designee to conduct a preliminary review of such cases to determine whether a disciplinary action other than expulsion is appropriate. Nothing in this policy shall be construed to require a student's expulsion regardless of the facts of the particular situation.

The exemptions set out in Va. Code § 18.2-308 regarding concealed weapons apply, *mutatis mutandis*, to the provisions of this Policy. The provisions of this policy do not apply to persons who possess such firearm or firearms or pneumatic guns as a part of the curriculum or other programs sponsored by the schools in the school division or any organization permitted by the school to use its premises or to any law-enforcement officer while engaged in his duties as such.

Drug Offenses

The school board shall expel from school attendance any student whom the school board has determined to have brought a controlled substance, imitation controlled substance, or marijuana as defined in Va. Code § 18.2-247, onto school property or to a school-sponsored activity. The school board may, however, determine, based on the facts of the particular case, that special circumstances exist and another disciplinary action is appropriate. In addition, the School Board may, by regulation, authorize the superintendent or the superintendent's designee to conduct a preliminary review of such cases to determine whether a disciplinary action other than expulsion is appropriate. Nothing in this policy shall be construed to require a student's expulsion regardless of the facts of the particular situation.

C. Procedure for School Board Disciplinary Committee Hearing

The procedure for the Disciplinary Committee hearing shall be as follows:

- The Disciplinary Committee determines the propriety of attendance at the hearing of persons not having a direct interest in the hearing. The hearing is private unless otherwise specified by the Disciplinary Committee.
- The Disciplinary Committee may ask for opening statements from the principal or his representative and the student or his parent(s) (or their representative) and, at the discretion of the Disciplinary Committee, may allow closing statements.
- The parties then present their evidence. Because the principal has the ultimate burden of proof, he presents his evidence first. Witnesses may be questioned by the Disciplinary Committee members and by the parties (or their representative). The Disciplinary Committee may,

at its discretion, vary this procedure, but it shall afford full opportunity to both parties for presentation of any material or relevant evidence and shall afford the parties the right of cross-examination provided, however, that the Disciplinary Committee may take the testimony of student witnesses outside the presence of the student, his parent(s) and their representative if the Disciplinary Committee determines, in its discretion, that such action is necessary to protect the student witness.

- The parties shall produce such additional evidence as the Disciplinary Committee may deem necessary. The Disciplinary Committee shall be the judge of the relevancy and materiality of the evidence.
- Exhibits offered by the parties may be received in evidence by the Disciplinary Committee and, when so received, shall be marked and made part of the record.
- The Disciplinary Committee may, by majority vote, uphold, reject or alter the recommendations.
- The Disciplinary Committee transmits its decision, including the reasons therefor, to the student, his parent(s), the principal and superintendent.

Following the decision of the Disciplinary Committee or upon expiration of the appeal period, the student's parent(s) or guardian shall be provided with written notice which includes the following:

- The terms or conditions of re-admission, if any;
- The duration of expulsion;
- A statement declaring whether the student is eligible to return to school or attend an appropriate alternative education program approved by the School Board or an adult education program offered by the division during or after the expulsion. If neither option applies, a statement that the student may petition the School Board for readmission after one calendar year from the date of his expulsion; and
- The availability of community-based educational, training and intervention programs.

The student or his parent(s) may appeal the Disciplinary Committee's decision to the full School Board only if the decision of the Disciplinary Committee is not unanimous. Otherwise the decision of the Disciplinary Committee is final.

The appeal to the full School Board must be in writing and must be filed with the superintendent within five (5) calendar days of the committee's decision. Failure to file a written appeal within the specified time constitutes a waiver of the right to an appeal. The full School Board decides the appeal upon the record of the case within thirty (30) calendar days of the request for an appeal and communicates its decision in writing to the student and his parent, guardian, or other person having control or charge of the student. Such written notice includes any changes in: (1) the duration of the suspension or expulsion; (2) the availability of community-based educational, training, and intervention programs; and/or (3) eligibility to return to school or attend an alternative education program. No statements, witnesses or evidence may be presented at this appeal unless specifically requested by the Chairman of the Board.

ALTERNATIVE EDUCATION PROGRAM

The school board may require any student who has been

1. charged with an offense relating to the laws of Virginia, or with a violation of school board policies, on weapons, alcohol or drugs, or intentional injury to another person, or with an offense that is required to be disclosed to the superintendent pursuant to Va. Code § 16.1-260.G;
2. found guilty or not innocent of an offense relating to Virginia's laws on weapons, alcohol, or drugs, or of a crime that resulted in or could have resulted in injury to others, or of an offense that is required to be disclosed to the superintendent pursuant to Va. Code § 16.1-260.G.;
3. found to have committed a serious offense or repeated offenses in violation of school board policies;
4. suspended pursuant to Va. Code § 22.1-277.05; or
5. expelled pursuant to Va. Code § 22.1-277.06, 22.1-277.07, or 22.1-277.08 or subsection B of Va. Code § 22.1-277, to attend an alternative education program. The School Board may require such student to attend such programs regardless of where the crime occurred.

The School Board may require any student who has been found to have been in possession of, or under the influence of drugs or alcohol on a school bus, on school property, or at a school-sponsored activity in violation of school board policies, to undergo evaluation for drug or alcohol abuse, or both, and, if recommended by the evaluator and with the consent of the student's parent, to participate in a treatment program.

A principal or principal's designee may impose a short-term suspension, pursuant to Va. Code § 22.1-277.04, upon a student who has been charged with an offense involving intentional injury enumerated in Va. Code § 16.1-260.G, to another student in the same school pending a decision as to whether to require that such student attend an alternative education program.

As used herein, "charged" means that a petition or warrant has been filed or is pending against a pupil.

REPORTING

A. Except as may otherwise be required by federal law, regulation, or jurisprudence, reports are made to the superintendent and to the principal or superintendent's designee on all incidents involving

1. the assault, or assault and battery, without bodily injury, of any person on a school bus, on school property, or at a school-sponsored activity;
2. the assault and battery which results in a bodily injury, sexual assault, death, shooting, stabbing, cutting, or wounding of any person, or stalking of any person, as described by Va. Code §18.2-60.3, on a school bus, on school property, or at a school-sponsored activity;
3. any conduct involving alcohol, marijuana, a controlled substance, imitation controlled substance, or an anabolic steroid on a school bus, on school property, or at a school-sponsored activity, including the theft or attempted theft of student prescription medication;
4. any threats against school personnel while on a school bus, on school property, or at a school-sponsored activity;
5. the illegal carrying of a firearm as defined in Va. Code §22.1-277.07 onto school property;
6. any illegal conduct involving firebombs, explosive materials or devices or hoax explosive devices, as defined in Va. Code §18.2-85, or explosive or incendiary devices, as defined in Va. Code 18.2-433.1, or chemical bombs, as described in Va. Code 18.2-87.1, on a school bus, on school property, or at a school sponsored activity;
7. any threats or false threats to bomb, as described in Va. Code 18.2-83, made against school personnel or involving school property of school buses;
8. the arrest of any student for an incident occurring on a school bus, on school property, or at a school-sponsored activity, including the charge therefor and
9. any illegal possession of weapons, alcohol, drugs, or tobacco products.

B. The superintendent and the principal or principal's designee may receive reports made by local law enforcement authorities on offenses, wherever committed, by students enrolled at the school if the offense would be a felony if committed by an adult or would be a violation of the Drug Control Act, Va. Code § 54.1-3400 et seq., and occurred on a school bus, on school property, or at a school-sponsored activity, or would be an adult misdemeanor involving any incidents described in the clauses (1) through (8) of subsection VII.A. of this policy, and whether the student is released to the custody of his parent or, if 18 years of age or more, is released on bond. A superintendent who receives notification that a juvenile has committed an act that would be a crime if committed by an adult pursuant to subsection G of Va. Code § 16.1-260 reports such information to the principal of the school in which the juvenile is enrolled.

C. The principal or principal's designee submits a report of all incidents required to be reported pursuant to subsection VII.A.(1-8) of this policy to the superintendent. The superintendent annually reports all such incidents to the Department of Education.

In submitting reports of such incidents, principals and superintendents shall accurately indicate any offenses, arrests, or charges as recorded by law-enforcement authorities and required to be reported by such authorities pursuant to subsection VII.B. of this policy.

D. The principal or principal's designee notifies the parent of any student involved in an incident required by this subsection to be reported, regardless of whether disciplinary action is taken against such student or the nature of the disciplinary action. Such notice relates to only the relevant student's involvement and does not include information concerning other students.

E. Whenever any student commits any reportable incident as set forth in this subsection, such student shall be required to participate in such prevention and intervention activities as deemed appropriate by the superintendent or superintendent's designee.

F. Except as may otherwise be required by federal law, regulation, or jurisprudence, a principal immediately reports to the local law-enforcement agency any act enumerated in clauses (2) through (7) of subsection VII.A. of this policy that may constitute a criminal offense and may report to the local law enforcement agency any incident described in clause (1) of subsection VII.A. of this policy.

In addition, except as may be prohibited by federal law, regulation, or jurisprudence, the principal also immediately reports any act enumerated in clauses (2) through (5) of subsection VII.A of this policy that may constitute a criminal offense to the parents of any minor student who is the specific object of such act. Further, the principal reports that the incident has been reported to local law enforcement as required by law and that the parents may contact local law enforcement for further information, if they so desire.

G. For purposes of this section, "parent" or "parents" means any parent, guardian or other person having control or charge of a child.

RE-ADMISSION OF SUSPENDED AND/OR EXPELLED STUDENTS

Any student who has been suspended from a school of this division is not eligible to attend any other school within the division until eligible to return to his or her regular school.

Any student who has been expelled or suspended for more than thirty days from attendance at school by a school board or a private school in this Commonwealth or in another state or for whom admission has been withdrawn by a private school in this Commonwealth or in another state may be excluded from attendance in the NORTHAMPTON COUNTY Schools, in accordance with Policy JEC School Admission. In the case of a suspension of more than thirty days, the term of the exclusion may not exceed the duration of such suspension.

In excluding any such expelled student from school attendance, the local school board may accept or waive any or all of any conditions for readmission imposed upon such student by the expelling school board pursuant to Va. Code § 22.1-277.06. The excluding school board shall not impose additional conditions for readmission to school.

No suspended student is admitted to the regular school program until such student and his parent have met with school officials to discuss improvement of the student's behavior, unless the school principal or principal's designee determines that re-admission, without parent conference, is appropriate for the student.

If the parent fails to comply with this policy or Policy JEC School Admission, the School Board may ask the Juvenile and Domestic Relations Court to proceed against the parent for willful and unreasonable refusal to participate in efforts to improve the student's behavior.

Upon the expiration of the exclusion period for an expulsion or a withdrawal of admission, which period shall be established by the school board, committee thereof, or superintendent or superintendent's designee, as the case may be at the relevant hearing, the student may re-petition the school board for admission. If the petition for admission is rejected, the school board shall identify the length of the continuing exclusion period and the subsequent date upon which such student may re-petition the school board for admission.

The school board may permit students excluded pursuant to this subsection to attend an alternative education program provided by the school board for the term of such exclusion.

DISCIPLINING STUDENTS WITH DISABILITIES

Students with disabilities are disciplined in accordance with Policy JGDA Disciplining Students with Disabilities.

Note: Students may not participate in school activities or be on property owned by the Northampton County Public Schools while serving a suspension or an expulsion unless granted permission by the Division Superintendent.

SCHOOL BUS CONDUCT

In view of the safety factors involved in student transportation, the driver is in full authority over the bus and its passengers. Students are required to follow bus rules and respond to the requests of the driver or face possible loss of bus riding privileges and/or other appropriate discipline code dispositions as designated for the various offenses. It takes total cooperation of the driver, students, and parents to make a safe transportation program. **All offenses listed in the uniform discipline code are applicable to behavior on the school buses.** In addition, the following instructions and rules are incorporated and applied within this discipline code:

Students must ride their assigned buses. Changes are made only for emergency situations. No student will be allowed to leave a school bus from the point at which he/she normally gets on the bus until he/she is discharged at the school in which he/she is enrolled. The pupil will be permitted to leave the school bus if he/she has written permission of the parent and/or guardian as approved by the principal or his/her designee.

1. Parents or their designees are requested to accompany their pre-school children to and from the designated bus stop.
2. Students must be at the designated bus stop at the designated time.
3. In approaching the stopping place for the bus, walk toward the traffic.
4. While waiting for the bus, students should not play on the street, sidewalk or highway.
5. Objects should not be thrown while waiting for or riding the bus.
6. Students should get on the bus in an orderly manner and avoid crowding and disturbing others.
7. Students should stay in their assigned seat during the entire trip. "Moving about" on the bus is prohibited.
8. Normal conversation is accepted; however, students should not engage in loud talk.
9. Students must keep their heads, arms, and hands inside the bus.
10. Students are not permitted to talk to the driver while the bus is in motion unless it is an emergency or requested by the driver.
11. Eating, chewing gum, drinking, and littering are not permitted.
12. Objects that may be used to damage school property or cause bodily harm are not permitted.
13. Balloons and glass containers are not permitted.
14. Audio and video equipment are not allowed on the school bus. On field trips or athletic travel, Principal approval may be granted.
15. Students are not permitted to play cards or gamble.
16. All objects other than normal school property and materials must be checked and approved by the driver before being admitted on the bus.
17. Cell phones must remain off while on the bus.
18. Students are to conduct themselves on the bus in such a way that will not distract the driver. Distracting the driver puts everyone on the bus at risk.

The driver must report to the principal or his/her designee all student misbehavior. It is the responsibility of the principal or his/her designee to decide upon the disciplinary action to be taken in accordance with the Code of Conduct. Off-the-bus suspension may be used in addition to or instead of out-of-school suspension in some cases.*

Misbehavior on the school bus will not be tolerated:

DISCIPLINING STUDENTS WITH DISABILITIES

Students with disabilities, who violate the student code of conduct, or engage in conduct for which they may be disciplined, will be disciplined in accordance with this policy. Additionally, the regular disciplinary procedures must be followed. School personnel may consider any unique circumstances on a case-by-case basis when determining whether to order a change in placement for a child with a disability as a result of discipline.

I. Long-Term Suspensions, Expulsions or Short-Term Suspensions Which Constitute a Pattern -- Change in Placement

For the purpose of removing students with disabilities from their current educational placements, a change in placement occurs when:

- (1) the removal is for more than 10 consecutive school days at a time; or
- (2) there is a series of removals each of which is for 10 days or less and they cumulate to more than 10 days in a school year and constitute a pattern because of:
 - (a) the length of each removal,
 - (b) the proximity of the removals,
 - (c) the total time the student is removed, and
 - (d) the child's behavior is substantially similar to the child's behavior in previous incidents.

If the disciplinary action will result in a change of placement for a student with a disability then that student's parents must be sent notice that same day of the recommendation for discipline and be provided with a copy of the procedural safeguards. The procedures outlined in Section IV must also be followed.

II. Short-Term Suspension

A short-term suspension is a suspension of 10 consecutive days or less at a time.

School authorities may remove a student with a disability from his or her current educational setting for up to 10 school days cumulative in a school year to the extent that such removal would be applied to students without disabilities and for additional short-term suspensions provided no pattern exists.

III. Functional Behavior Assessments and Behavior Intervention Plans

If the school administration, the parent, and the relevant Individualized Education Program (IEP) team members determine that a manifestation exists, the IEP team must:

- conduct a Functional Behavioral Assessment (FBA) and implement a Behavioral Intervention Plan (BIP), if no FBA was conducted previously; or,
- if the student already has a FBA and BIP in place, review and modify the BIP, as necessary to address the behavior.

If a manifestation is found, the school division and the parent may agree to a change in placement when reviewing or modifying the BIP. Without this agreement, the student must return to the placement from which the student was removed.

IV. Educational Services While Disciplined

For the first 10 days of removal in a school year, the School Board is not required to provide educational services to the student with a disability if services are not provided to students without disabilities who have been similarly removed.

After the first 10 days of removal in a school year, the School Board shall provide educational services to the student during the period of removal. The services must enable the student to:

- 1) continue to progress in the general curriculum, although in another setting, and
- 2) progress toward meeting the goals set out in the student's IEP.

The determination of educational services is made by the IEP team for discipline which constitutes a change in placement. For discipline which is not a change in placement, the determination is made by school personnel in consultation with the student's special education teacher.

V. Manifestation Determination

When a disciplinary action is proposed that will result in a change of placement, a manifestation determination review shall be conducted within 10 school days after the date on which the decision to take disciplinary action is made. This review shall be conducted by the Manifestation Team which consists of a local educational agency representative, the parent and relevant members of the IEP team (as determined by the parent and the school division).

The Manifestation Team may determine that the behavior of the student was not a manifestation of such child's disability only if the Team:

- 1) considers all relevant information in the student's file, including the student's IEP, any teacher observations, and any relevant information supplied by the parents; and
- 2) determines that:
 - (a) the conduct in question was not caused by, or had a direct and substantial relationship to, the student's disability; and
 - (b) the conduct in question was not the direct result of the school division's failure to implement the IEP.

If a manifestation is found, the student cannot be disciplined beyond any permissible short term removal that may be available. A parent may request an expedited due process hearing if the parent disagrees with the determination that the behavior was not a manifestation of the student's disability or if the parent disagrees with any decision regarding the placement of the student while disciplined. The student will remain in the interim alternative education setting pending the decision of the hearing officer or the expiration of a forty-five school day removal.

VI. Disciplinary Action for Behavior that is Determined Not to be a Manifestation

If the behavior is not a manifestation of the student's disability, the disciplinary procedures will be applied in the same manner as applied to nondisabled students. Following a removal which constitutes a change in placement, the student must continue to receive the educational services necessary to enable the student to continue to participate in the general curriculum, although in another setting, and to progress toward meeting the goals set out in the student's IEP. In addition, the special education and disciplinary records of the student must be made available to the person who makes the final decision regarding the discipline.

VII. Disciplinary Action and/or Alternative Placement for Behavior That Is Determined To Be a Manifestation

A student with a disability whose behavior is determined to be a manifestation of his or her disability may not be disciplined except to the extent a removal is otherwise permitted by law. The student may also be removed to a more restrictive placement by following change in placement procedures. The IEP team must conduct or review a FBA and/or BIP as provided in Section III.

VIII. Interim Alternative Educational Settings for Weapons and Drugs and Infliction of Serious Bodily Injury

Students with disabilities 1) who carry or possess a weapon to or at school, on school premises, or to or at a school function under the jurisdiction of a state or local educational agency; 2) who knowingly possess or use illegal drugs or sell or solicit the sale of a controlled substance, while at school, on school premises, or at a school function under the jurisdiction of a state or local educational agency; or 3) who inflict serious bodily injury upon another person while at school, on school premises, or at a school function under the jurisdiction of a state or local educational agency may be disciplined pursuant to Policies JFCD, JFCF or JGDB and may be placed in an interim alternative educational setting for up to forty-five school days. This option is available without regard to whether a manifestation exists. If no manifestation is found, the student may be disciplined to the extent a student without disabilities would be disciplined.

Any interim alternative educational setting shall be selected, by the IEP team, so as to enable the student to continue to progress in the general curriculum, although in another setting, and to progress toward meeting the goals set out in the student's IEP. The student must also receive, as appropriate, a FBA, behavioral intervention services and modifications designed to address the behavior so it does not recur.

IX. Change of Placement by Hearing Officer

In addition to the other options for removal, a hearing officer may order a change in the placement for a student with a disability to an appropriate interim alternative educational setting for not more than forty-five (45) school days if the hearing officer determines that maintaining the current placement of such student is substantially likely to result in injury to the student or others. Additional forty-five (45) school day removals may be authorized by the hearing officer as necessary.

X. Placement During Appeals

Students with disabilities are entitled to the due process rights available to a non-disabled student. In addition, students with disabilities are entitled to the due process procedures available under the Individuals with Disabilities Education Act, as amended and any state procedures. During the course of any appeals, the student's placement shall be in accordance with the provisions of federal law unless the parent and the school division agree otherwise.

XI. Students Not Identified as Disabled

Students for whom the parents assert there is a disability but who have not yet been identified as disabled may be subjected to the same measures applied to students without disabilities if the school division did not have knowledge of the disability before the behavior that precipitated the disciplinary action occurred. A school division will be found to have knowledge of the student's disability if before the behavior that precipitated the disciplinary action occurred:

(1) the parent expressed concern in writing to supervisory or administrative personnel of the school division, or to a teacher of the student, that the student is in need of special education and related services; or

- (2) the parent requested an evaluation of the student for special education eligibility through formal evaluation procedures; or
- (3) the student's teacher or other school personnel had expressed specific concerns about a pattern of behavior demonstrated by the student directly to the director of special education or to other supervisory personnel of the school division.

A school division would not be found to have knowledge of a student's disability if:

- (1) the parents refused to allow an evaluation of the student or refused special education services; or
- (2) the student was evaluated and found not eligible for special education services.

If a request for an evaluation is made during the period such student is subject to disciplinary measures, the evaluation shall be conducted in an expedited manner. If the student is found eligible as a child with a disability, taking into consideration information from the evaluation conducted by the school division and information provided by the parents, then the student must be provided special education and related services, although in another setting, in compliance with the procedures for suspended and expelled students with disabilities. Pending the results of the evaluation, the student shall remain in the educational placement determined by the school authorities.

XII. Disciplining Certain Section 504 Students Who Violate Alcohol and Drug Policies

Students who are identified as disabled solely under Section 504 of the Rehabilitation Act, and who are currently engaging in the illegal use of drugs or alcohol, may be disciplined for violating the division's alcohol and drug policies to the same extent as non-disabled students. The student is not entitled to a due process hearing under special education procedures in this circumstance but does retain the protections afforded to regular education students.

SEARCH AND SEIZURE

A search involves an invasion of privacy. Whether a search of a student is permissible depends on a balancing of the student's right to privacy and freedom from unreasonable search and seizure against the school division's responsibility to protect the health, safety and welfare of all persons in the school community and to carry out its educational mission. To maintain order and discipline in the schools and to protect the health, safety and welfare of students and school personnel, school authorities may search a student, student belongings, student lockers or student automobiles under the circumstances outlined below and may seize any illegal, unauthorized, or contraband materials discovered in the search.

As used in this policy, the term "unauthorized" means any item dangerous to the health or safety of students or school personnel, or disruptive of any lawful function, mission or process of the school, or any item described as unauthorized in school rules available beforehand to the student.

The locations at which searches of students and student property may be conducted are not limited to the school building or school property,. Searches may be conducted wherever the student is involved in a school-sponsored function.

PERSONAL SEARCHES

A student's person and/or personal effects (e.g. purse, book bag, etc.) may be searched by a school official whenever the official has reasonable suspicion to believe that the student has violated or is about to violate the law or a school rule and that the search will yield evidence of the violation.

All individual searches of students must be based on reasonable suspicion. In order to be permissible, the search must be:

1. justified at its inception and
2. reasonably related in scope to the circumstances justifying the search.

An individual search is justified at its inception when a school official has reasonable grounds, based on the totality of the known circumstances, for suspecting that the search will reveal evidence that the student has violated or is violating either the law or the rules of the school. A search is reasonable in scope when it is reasonably related to the objectives of the search and is not excessively intrusive in light of the age and sex of the student and the nature of the suspected infraction.

A personal search may include requiring a student to be scanned with a metal detector.

A pat down search of a student may only be conducted if a school administrator has established a high level of reasonable suspicion that evidence will be found to corroborate suspicion that a law or school rule has been broken. If a pat down search of a student's person is conducted, it will be conducted in private by a school official of the same sex and with an adult witness of the same sex present.

Strip searches involve an extreme intrusion into the rights of a student and may only be conducted when an extremely serious situation exists requiring immediate action because of an imminent threat of death or great bodily injury to a person or persons. If a strip search is necessary the school official should contact the appropriate law enforcement official, and the search should be conducted by a sworn law enforcement officer of the same sex, in the presence of a same sex adult witness. School officials may only conduct a strip search in cases where it is necessary to avoid the imminent threat of death or great bodily injury to the student or another person. If a strip search must be conducted by a school official, it must be by a same sex official with a same sex adult witness, and the school official must have the prior approval of the superintendent or superintendent's designee, unless the health or safety of the student is endangered by the delay.

LOCKER AND DESK SEARCHES

Student lockers and desks are school property and remain at all times under the control of the school; however, students are expected to assume full responsibility for the security of their lockers and are responsible for the content of their assigned locker at all times. Periodic general inspections of lockers and desks may be conducted by school authorities for any reason at any time without notice, without student consent, and without a search warrant.

AUTOMOBILE SEARCHES

Students are permitted to park on school premises as a matter of privilege, not of right. The school retains authority to conduct routine patrols of student parking lots and inspections of the exteriors of student automobiles on school property. The interiors of student vehicles may be inspected whenever a school official has reasonable suspicion to believe that the student has violated or is about to violate the law or a school rule and that the search will yield evidence of the violation, or that illegal or unauthorized materials or other evidence of illegal or otherwise prohibited activities are contained inside the automobile. Such patrols and inspections may be conducted without notice, without student consent, and without a search warrant.

COMPUTER SEARCHES

School computers, software and internet access are school property. Students are only authorized to use school computers and other similar educational technology consistent with the educational mission of the school and in accordance with Policy IIBEA Acceptable Computer System Use. School officials may search school computers, software and internet access records at any time for any reason and without student consent.

CONSENT SEARCHES

If a student gives a school official consent for a search the school official does not need to demonstrate reasonable suspicion. A student's consent is only valid if given willingly and with knowledge of the meaning of consent. Students should be told of their right to refuse to be searched, and students must not perceive himself at risk of punishment for refusing to grant permission for the search.

SEIZURE OF ILLEGAL MATERIALS

If a properly conducted search yields illegal or contraband materials, such findings shall be turned over to proper legal authorities for ultimate disposition.
