Re: Notice of Extension on Response to Request for Public Records Received
February 3, 2022

Dear Nathalie Christian:

1. The City of Benicia (“City”) is in receipt of your email request seeking “Communications from
 - a. Mayor Steve Young, Tom Campbell, and Trevor Macenski, pertaining to
 - b. Brandon Greene, Nimat Shakoor-Grantham, and Andre Stewart and made between November 1, 2020 and December 10, 2021
2. Communications from
 - a. Benicia City Council Members, Steve Young, Tom Campbell, Trevor Macenski, Christina Strawbridge, Lionel Largaespada;
 - b. City Manager Erik Upson; and
 - c. Equity, Diversity, and Inclusion Manager Dr. Maliika Chambers
 - d. Regarding
 - i. the outreach, nomination, and selection process for the Committee United for Racial Justice (CURE) and dated from November 1, 2020 to December 10, 2021”.

This letter shall serve as the City’s formal written response to your request under the California Public Records Act (Government Code section 6250 *et seq.*).

The City wishes to cooperate to the fullest extent possible with the Public Records Act. Under established California law, the City is obliged to comply with a request for a public record so long as the requester makes a specific and focused request for information, that information is maintained by the City in its ordinary course of business, the information is disclosable, and the record can be located with reasonable effort. The Public Records Act provides for the inspection or copying of existing identifiable public

records; it does not compel the City to create new records, lists, privilege logs, or reports in response to a request.

Consistent with that requirement, the City has conducted a search and is providing the documents attached, which includes email communications from the requested council members.

Please note, however, portions of the requested records responsive to your request have been redacted under the public interest exemption, as the public interest in disclosure of personal information was outweighed by the public interest in protecting that information from disclosure. (California Government Code § 6255.) Other records responsive to your request have been withheld under the deliberative process privilege as responsive records included pre-decisional communications among policy makers, which on the facts of the particular case, the public interest served by not making the record public clearly outweighs the public interest served by disclosure. (Government Code § 6255; *Citizens for A Better Environment v. Department of Food & Agriculture* (1985) 171 Cal.App.3d 704, 717.) In addition, other records were withheld under the Attorney-Client Privilege, which are exempted from disclosure pursuant to Government Code 6254(k). (*See: Evidence Code sections 952 and 954; Agricultural Labor Relations Bd. v. Superior Court* (2016) 4 Cal.App.5th 675, 688.)

Also please be advised that the timelines for a response required under Benicia Municipal Code Chapter 4.12 were suspended on April 7, 2020, by Resolution No. 20-32, as staffing limitations severely impact the City's ability to timely respond to such requests. This suspension shall remain in effect until the termination of the declared state of emergency or until such time as it is terminated by the Director of Emergency Services or the City Council of the City of Benicia. The City continues its commitment to governmental transparency and will continue to issue responses to requests pursuant to the requirements of the California Public Records Act.

We consider this request fulfilled. If you have any questions about the City's response or would like to discuss your request, please feel free to contact me directly at abussart@ci.benicia.ca.us (707) 746-4200.

Sincerely,

Ashley Bussart, Deputy City Clerk
cc: Benjamin Stock, City Attorney
Erik Upson, City Manager
Lisa Wolfe, City Clerk

Kashanna

No problem. But after Tuesday because a serial Brown Act violation can occur whether the subcommittee and Mayor meet separately with you as three individuals in three separate meetings or as a subcommittee meeting as a single unit. You simply have to know how a majority on the Council is going to vote from nonagendized nonpublic discussions with the Council members before the vote to have violated the Brown Act. That's why we on the subcommittee gave our choices publicly at the last meeting without any discussion with the Mayor and in turn he didn't talk to us about who he ultimately decided to appoint; and none of us have talked to the other two Council members.

Good afternoon Tom,

Thank you for responding so quickly. Would you be available to meet with the Government Action Team separately from the other members of the subcommittee?

Good morning,

I am contacting you to follow-up on an email I sent November 19, 2021. The email contained the following below.

On behalf of BBLM's Leadership and Government Action Teams, I am writing to request a meeting with you and the other members of the City Council subcommittee responsible for advancing preferences to the mayor for City Commissions and Board placements.

We seek an in-person meeting with all subcommittee members (and other City stakeholders as you prefer) together to best facilitate a meaningful and open dialogue with room for each attendee to voice their concerns and justifications. This smaller group of BBLM representatives can meet any morning after 10 am next week, except Tuesday or Thursday morning.

There is clearly more to discuss regarding the subcommittee's justification for excluding current BBLM members from the CURE subcommittee. For example, advancing two candidates who have left other organizational commitments but naming Brandon Greene's exit from the Open Government Commission as the reason for his exclusion shows an inconsistent application of expectations other candidates apparently did not have to adhere to. Rather than make assumptions about this subcommittee's motivations and potential prejudices, BBLM members hope to come to a place of agreement and understanding with you so we may move forward together in trust, mutual respect, and understanding.

Please feel free to call me directly to finalize a time that works best for all parties. You can reach me at this email address or by calling my cell [REDACTED]. To avoid potential conflicts and complications, BBLM members Brandon Greene and Amira Barger will not be present at this meeting.

Sincerely,

Kashanna Harmon-Lee

BBLM Secretary

Kashanna- Thank you for reaching out. Sorry for the delayed response. Upon receiving your initial email I reached out to our City Manager to better understand our process for post subcommittee recommendations and debrief discussions. Come to find out we do not have a formal process; however, given the Mayors now posted recommendations for appointments I think it would be best to have this discussion after the CC meeting on the 7th has taken place.

This week is already pretty booked up, but how about the week of the 13th? Does Tuesday the 14th work for you?

Hello, Council Member Macenski,

Would you please confirm the below recommendations, especially the one for the Community Sustainability Commission. Also,

- To confirm, we will move forward with the recommendation of Kelsey Bye for Open Gov, and Neema Hekmat for Arts and Culture?
- After discussing with our City Clerk, we will move forward with getting the recommendations for current vacancies on the November 16th agenda.
- For the terms ending 1/31/22, we will move forward with adding the recommendations to the agenda for the last meeting in December or early January.

Please let me know if you have any questions or concerns. Thank you.

Best,

Brandon,

I hear you, but disagree in part. We're doing some really amazing work deep in this organization and in the community...I'm very proud of that. Well beyond the items in the resolution. I'd love to go over that more in detail with you. Also, our organization has gotten more diverse over the last year, as you've likely seen. And that work continues...

The structure of the Committee is appropriate and I'm very confident the Council and Mayor will choose (from a fantastic array of candidates) some amazing people. And it will be functional.

Subject: Re: Public Comment - CURE

Erik,

I've appreciated our discussions. I'm going to be concise and say that I find this whole discussion offensive. There is not a council member who even had the slightest knowledge base with regard to the issues, tools or tactics before the CURE commission. I spent an inordinate amount of time having to educate Council and others on these issues. I have little faith in Council being able to assess my expertise and lived experience. I personally have been waiting for over a year for the commission to begin just to have an item placed on the agenda with no consultation and no consideration of my efforts.

I've always operated with honesty and good faith in my communications with the City but I am taken a back by the lack of transparency and respect afforded myself and my colleagues. Trust is something built over time. This amendment by the council could not possibly be designed to generate trust from I or my colleagues.

The entertaining of the amendment by council member Largaespada shows how far this city has to travel as it so quickly the work it took to get here.

Subject: Public Comment - CURE

Greetings Mayor and Council,

I am writing with great concern about today's agenda item. As a cofounder of Benicia Black Lives Matter and a person who conceived of the commission my concerns are as follows: First, I am concerned about the proposed alterations as the work as not even yet begun. Without any baseline for the work, the idea of establishing a sunset for the commission within the next couple of years undervalues the work that needs to be done in Benicia. The issues of race and diversity in Benicia are decades in the making in and thus proposing to sunset the commission within the next two years seems to not be approaching the work with the seriousness it commands. Secondly, as the commission was conceived by Benicia Black Lives Matter I have great concerns about establishing a membership that does not include the two members as agreed-upon as it would open up the door to possibly stack the commission with individuals who may not have a genuine interest or desire to advance the work as conceived. Finally, I have concerns about the scope of and the work of the commission, as proposed it appears it would just be a place to hear what the City is doing with no actual influence or accountability. In the years since it's inception BBLM has pushed the City to engage in historic work, what the City needs is a long term commitment to this work so as to live its values and walk its talk, as proposed, it appears that the City believes progress in two years can trump decades of racial inequity and a lack of focused and culturally aware decision making. This is is mistake.

I appreciate this email Roger and agree. I feel like we have not done a good enough job with the external communication piece (that is entirely my fault). We are trying to remedy that with the October 5 presentation to Council and then we will push that info out through various channels as well.

Thank you,

Erik

Steve, Nimat and Brandon – I thanked Dr. Chambers privately for her response. It's good news that there will be info for the public on the website by mid-October, and that Council will hear an update on October 4.

To clarify the WHY of my inquiry: I understand and appreciate that the INTERNAL work of the Equity and Diversity program is of utmost importance, and takes considerable time. It just seems to me that the City would miss a teaching opportunity if it failed to promote the project EXTERNALLY, to residents and the world at large. Benicia has initiated an incredible deep look at equity and diversity, and there's power in telling that story. When we tell the story, we educate our own community as to the prominent place we have given to equity and diversity – and we show the world how a small town can take positive steps to promote equity and diversity.

I supposed that you three would share my appreciation for both the INTERNAL and the EXTERNAL thrust of our equity and diversity work. Which is why I copied you on my email.

Please note that I never intended to suggest that Dr. Chambers was “being hidden” from the public and I wouldn't have suggested that she is not a City employee. I can only think that a conversation got garbled somehow. I have always been openly appreciative and supportive of our City's initiative and of Dr. Chambers. It's great that she and the City will get the word out soon, and I stand ready to help spread the word.

Hello Roger,

Good to hear from you - thank you for checking in!

Yes, you are correct - in our conversation, you asked if "I was being hidden from the public or suggesting that perhaps I am not a City employee because I didn't appear on the website."

My apologies for the delay; it has been a busy six months in my role, as you might imagine! I am working with the City's IT department to the finalize the VIBE page - please check again mid-October when the page will be live on the City website.

Regarding progress reports to Council, your timing is impeccable - the first update is scheduled for the October 4th City Council meeting.

All the best,

Maliika

Subject: Equity and Inclusion in Benicia

Hi Maliika – On June 3, you wrote in an email to me, "I am part of the City Manager's Office (CMO) and there is a dedicated page for the Equity and Inclusion work on the City website. It is not visible to the public yet. I am working on the final draft of the webpage with the IT Manager this week, and it should go live within the next week or so. It will include the City's equity statement, a description of our VIBE strategy, my contact information, and updates regarding our affiliations with GARE, NLC, and Cities of Opportunity."

Today I was unable to find anything about you or your work on the City website. After looking around on the City Manager's page, I did a general search, and this is what I found:
Searched for: maliika

Pages (0)	Documents (0)
-----------	---------------

No document matches have been found.

I got the same result searching for "equity and inclusion" and "equity and diversity." Am I missing something? (Note that a search on "equity" alone DID come up with 2 docs, applications for the CURE positions.)

How's it going? I continue to wish you well, and to hold high hopes for your work here in Benicia. Have there been any progress reports given to Council members or the public? I don't attend Council meetings very often, so I might've missed something. If there's a report, I'd like to see a copy.

Via email:

May 13, 2021

Mayor Young, Councilmember Strawbridge, Councilmember Macenski,
Councilmember Campbell, Councilmember Largaespada

Dear City Council,

I am writing as a concerned citizen, member of Benicia Black Lives Matter and a future member of the Commission United to for Racial Equity (C.U.R.E.) to raise significant concerns with the proposal to expand the use of automated license plate reader (ALPR) technology in our community. I urge the City Council to consider alternatives to surveillance that will keep our community safe without the severe costs to civil rights and civil liberties invited by ALPR.

For almost a year now, I have helped to organize with Benicia Black Lives Matter. I helped to draft the Resolution 20 that made Benicia the first City in Solano County to establish an Equity Officer, to create Black centered programming through the library, to commission an equity indicators report and other firsts contained within the proposal. At its heart this resolution was necessary to center the experience of Black, Brown and other marginalized communities within Benicia and to call into question how we think about and experience public safety. A central part of this discussion is the sheer breadth, reach, and investment in policing at the expense of other needs. The Benicia Police Department is by far the largest funded agency within the city. As part of the resolution \$25,000 dollars was supposed to be moved so as to support other programming. This diverting of resources was aimed at starting a discussion about how policing is inextricably connected to anti-Blackness both in our city and in our country. The fact that less than a year after this discussion began, we are now having to advocate against the expansion of the surveillance state, meant to keep an eye on those who are entering and leaving our town, gives me great pause, as it is hard to see this as any more than the digitization of the same racialized Nimbyism that has been so jarring, so painful and antithetical to the humanity of Black and Brown people found on Nextdoor. This proposal is made even more egregious by the fact that a discussion of \$18,000 almost sunk the proposal to hire an Equity Officer and now we are having a discussion about investing over \$200,000 in surveillance under the auspice of public safety. This is not the community investment our town needs. The incidents of property crime cited in the staff report is nowhere near enough to trade our privacy for. Moreover, the continued denial of racism within the City of Benicia, made so public by my fellow neighbors should inspire our city leadership to be more bold and more visionary in its efforts to bring about racial equity and awareness. Investment in ALPR systems, that track visitors and passers through smacks of racial profiling and othering of residents from diverse cities.

ALPR systems - whether their cameras are attached to police cars or street lights - collect and store location information about drivers whose cars pass through their cameras' fields of view, which, after being matched to dates, times, and location, can be compiled into databases that reveal sensitive information about where our community members work, live, associate, and visit.

We know that ALPR systems have been misused to harm minority communities. For example, police have used license plate readers to target Muslim Americans by spying on mosques.¹ And before the advent of license plate readers, police monitored the license plates of LGBT people for purposes of extortion.² ALPR

systems are easily misused: blind reliance by San Francisco police on these readers led to the wrongful detention of a black woman at gunpoint, triggering a multi-year civil rights lawsuit.³

The community should always have a voice in decisions about whether to acquire surveillance systems such as ALPR and the safeguards and accountability mechanisms that need to be in place to prevent warrantless, mass surveillance. To ensure this debate and oversight occurs, we also urge the City Council to consider an ordinance that requires that decisions about surveillance technology such as ALPR are subject to rigorous democratic debate and input by community members who are impacted by the use of such technologies. More than a dozen U.S. communities – including Berkeley, Oakland, and San Francisco – have adopted ordinances based on ACLU guidance and that require transparency, oversight, and accountability for all surveillance proposals.⁶ Our residents deserve a voice in decisions such as these. To date, we know that this has not happened. Of the three meetings held on this issue, only one was open to the public and despite the almost universal condemnation of the proposal, there has been no additional follow up.

The risks to civil liberties and civil rights that ALPR technology creates are well-documented. The best way to ensure that our residents are safe from unnecessary intrusion into their personal lives and the misuse of their sensitive information is to reject the use of ALPR technology altogether. We urge the City to consider a public safety solution other than ALPR, which invites the creation of databases that are vulnerable to misuse that harms civil rights and residents. At a minimum, the city should press pause on any plans to deploy ALPR while it engages community members in a discussion about whether this surveillance technology is appropriate for our city, and the kinds of safeguards that should be in place whenever surveillance technology including drones are proposed. We would be happy to meet to discuss this issue.

Sincerely,

Brandon Greene

Of the three meetings held on this issue, only one was open to the public and despite the almost universal condemnation of the proposal, there has been no additional follow up.

The risks to civil liberties and civil rights that ALPR technology creates are well-documented. The best way to ensure that our residents are safe from unnecessary intrusion into their personal lives and the misuse of their sensitive information is to reject the use of ALPR technology altogether. We urge the City to consider a public safety solution other than ALPR, which invites the creation of databases that are vulnerable to misuse that harms civil rights and residents. At a minimum, the city should press pause on any plans to deploy ALPR while it engages community members in a discussion about whether this surveillance technology is appropriate for our city, and the kinds of safeguards that should be in place whenever surveillance technology including drones are proposed. We would be happy to meet to discuss this issue.

Sincerely,

Brandon Greene

I would suggest you contact City Manager Erik Upson with specific questions about the commission or the roles and responsibilities of the part time manager. He can be reached at 742-4600.

As to the question of murals, I like the design of the mural you attached. Putting any mural on City property is handled by the Public Art sub-committee of the Arts and Culture Commission. Murals on private property do not require City approval.

I realize my views on this issue may not align with yours or others in your group, but felt I owed you my honest feedback since you politely asked.

Please don't hesitate to reach out again.

Steve Young

Mayor

Subject: Recent Events

City council members and City Manager Upton:

A group of friends and I feel that over the last several years, the conversation towards the perceived atmosphere in Benicia has taken a turn.

Whereas we have always considered Benicia to be one of the greatest places to live, several people have decided to advance a different

agenda recently. Statements have been made online, in print, and videoed: "Benicia has an ugly underside" and "White silence is Violence"

The new city manager has also been placed in the position of hiring an equity and diversity manager, to what end, it is difficult to

determine. It seems that the city must bear that cost unnecessarily, as we are unaware of its being involved in any discrimination law suits.

It is time to move on from personal agendas. Instead of taking the lead from several people that have only arrived in Benicia in recent years, let's concentrate on the wonderful atmosphere and fascinating history of this town. There are families that have lived their entire lives in Benicia. Who is listening to and representing them?

We have recently been in touch with Mary Hand, suggesting that she concentrate on stories around positive issues in town, including interviewing long term residents that can provide stories that have made Benicia what it is today. People of different ethnicities that still love Benicia and it's very colorful history. She thinks that is a great idea.

Most interesting is the fact that a 16 year old Benicia High student is so excited about her town's history, she is working to see it included in classes. Imagine that! A 16 year old with a positive attitude about her town, although it seems that school kids are not currently taught anything about the history of Benicia.

In recent a video, Nimat Shakoor-Grantham, when asked about her BBLM states, that "we are getting a mural with the history of people of color here". In addition, we are getting a **commission** to address racial incidents in Benicia." We are proposing that City approve an all inclusive mural, such as below, rather than a mural that raises one race above the rest of the community.

We are asking all of you, with **exception of City Manager Upton,(unless he wishes to)**, to answer the following questions, individually, that have been put

together by a group of your Benicia constituents: And yes. People are listening this time.

Have you made yourself acquainted with the complete BBLM website, including accusations of racism in Benicia?

Have you read the derogatory statements Nimat Shakoor Grantham has made and produced for print in local media and online regarding Benicia?

Have you viewed her complete video?

What is required of a group to get a commission? I cannot find BBLM on the the Benicia List for Human Services or Aid. What are they doing to actually help out their Black brothers and sisters in town?

Our understanding is that BBLM consists of mostly white members. Why are we not hearing from our black residents?

Thank you, Maggie Catt  (if the image of all inclusive mural does not attach, please request it along with your answers.)

Trevor

Thank you for the timely and professional response.

I generally dont enjoy "politics", but this issue has been escalating and it does need to be addressed.

I have had responses from two other members of Council and the Mayor. One other member has offered to meet with me.

Let me know when is convenient to meet. Your schedule is much busier than mine.

Would you like the url for the video mentioned in my email? Nimat's interview should be easy to find, as well as the BBLM website. You may want to view them before we meet.

Of note also, is a video of the BBLM march down First Street last year, showing hundreds of white Benicians marching. There is a Black man that I do not recognize conducting and commenting on the march, saying what a great turn out it was, including "all of the colors of the rainbow". I could not find one face that was not white in the video. I thinks that speaks pretty well for our community,

Thank you

Maggie Catt

Subject: Re: Recent Events

Thank you for your note Ms. Catt.

Like you, and most people in Benicia, I know this community to be a great place to live with many great people. Let me give you my perspective on what is, for many people, a difficult question.

Despite being a great place to live, there is still a problem with discrimination that exists for many people of color. We are not immune from racism here, and there have been some troubling instances lately that bear this out.

Just this weekend, two white men pulled a gun on three young black teenagers in the Raley's parking lot and used hate speech and racial slurs to threaten them. The kids, ages 13,14, and 15 were understandably traumatized, and the suspects (two Benicia white men in their early 20s) were later arrested. There was also an incident of a white Benicia resident filmed verbally accosting some Asian American fishermen on the pier for being in "his" spot.

I am familiar with Benicia Black Lives Matter, but I have not dug deeply into their website. I also am aware that they are open to members of all races. I watched the video done by Nimat and understand it to be her opinion and description of experiences she has had as a black resident of Benicia. I have heard other stories from black residents of being pulled over by police and having the first question asked by the officer "Do you have any warrants?". I don't know about your experiences, but that has never been the first question put to me by an officer when I have been pulled over for a traffic violation.

I believe that structural racism is real, and we are not immune from it here. If you look at the makeup of our Boards and Commissions, for example, they are overwhelmingly white, which far exceeds the 70% white proportion of our population.

As to the creation of the Commission on Racial Equity and the hiring of a part time person to help address these issues within the City, those were approved by the City Council on a 4-1 vote.

I would suggest you contact City Manager Erik Upson with specific questions about the commission or the roles and responsibilities of the part time manager. He can be reached at 742-4600.
