COVID-19 Study

Juliette Douglas <juliettedouglas@smrld.org>

Fri, Jul 24, 2020 at 12:13 PM

To: staff <staff@smrld.org>

I had a question regarding why we changed our quarantine period from 3 to 4 days. I am sure others are wondering the same thing. There have been studies regarding the length of time COVID -19 stays on various surfaces. We are fortunate to have such a study conducted specifically for libraries, museums, and other similar organizations.

For those interested in having more information about the study and the results, below is a link to that study. Notice the study has two parts.
