Re: City of San Rafael – Encampment Resolution Funding Grant

Dear Mr. Duron:

The City of San Rafael, as permitted under State law, is self-insured for general liability, including automobile liability, for the first \$750,000. Accordingly, the City does not have a commercially issued general liability insurance policy. Additionally, the City participates in a public entity excess liability pool, the California Joint Powers Risk Management Authority (CJPRMA), for additional liability coverage in excess of \$750,000. Similarly, the City is self-insured for workers compensation liability, in the amount of \$1,000,000, with excess coverage provided by Safety National Casualty Corporation.

Because it is a local governmental agency existing in the State of California and because it is entitled to self-insure under the Government Code, the City assumes that this letter will satisfy the insurance requirements of the above-referenced Encampment Resolution Funding Grant.

Please call the City Attorney's Office at 415-485-3080 should you have any questions regarding insurance.

Very truly yours,

LISA A. GOLDFIEN
Assistant City Attorney
