

Regional Medical Examiner's Office

October 21, 2022

To Whom It May Concern:

I received your request for autopsy reports of homeless decedents in Washoe County from 2019 to present. The autopsy reports are generally not considered public records. In place of those reports, I am providing a Record of Death for each homeless decedent. This will include the public information including cause and manner of death.

I hope this helps.

Sincerely,

A handwritten signature in black ink, appearing to read "Justin Norton".
