Good Morning,

We received the attached request by mail to our department. This appears confusing to me as the name (Samuel Newton) that is on the letter is not represented on your website. Also, the scope of request and the questions asked are difficult to understand. Lastly, I want to make sure that you was intended for the City of Englewood in Colorado, as the proximity of your headquarters are far from our agency (in Colorado) and there are several cities named "Englewood" in your area.

I will wait to respond until I can confirm (the above) and please let me know if this was indeed intended to our department.

Also, I will also forward this to our City Clerk who manages our Open Records Requests.

Thanks...

Sam Watson
