To Whom It May Concern:

The Metro Contract with Fusus with all costs and other attachments are publicly available from the Metro Nashville website;

<https://documents.nashville.gov/Request/Form/Contracts>

All information available from Fusus about their camera sharing program can be found at <https://connectmetronashville.com> . Any agreements are between the entity and Fusus.

We do not have a record of any list of entities sharing cameras, since the portal in which Fusus provides has a geographical display of information, and any entity cameras on the map are placed there by Fusus. Fusus maintains the list of entities they have signed up into the program.

If there are questions, contact Central Records at 615-862-7631.
