

Subject: PRR 04262021

June 23, 2021

Hello Ms. Boyer,

I have received your communication dated 6-16-21.

My response is as follows:

YOU STATED:

“Dear Requestor:

In your June 14, 2021 message, you state that you have not been able to access records from the links provided to you to the District's Facebook and Instagram sites. My understanding is that Facebook and Instagram may require that you sign in to gain access.

I understand that you have been able to view but not download copies of records from the links provided to you to District's YouTube site, the District's website, the BoardDocs page within the District's website, and the District's Twitter account, and for that reason you are asking for copies of video recordings. Please confirm whether my understandings are correct.”

MY RESPONSE:

I have not requested identifiable public records from Facebook, Instagram, or any party not subject to the Washington State Public Records Act RCW 42.56. I have identified and requested digital copies of specific video recordings in the care, custody, or control of the Bellevue School District, a Washington State Public Agency. Copies of these digital video recordings were requested to be produced by the District via direct internet download link, email, or cd-rom.

Regarding the links provided to the District's YouTube site, the District's website, the BoardDocs page within the District's website, and the District's Twitter account, these links do not provide direct download access to the digital video recordings originally requested.

To “correct your understanding” the original public records request dated 04-26-2021 specifically requested the following:

“Digital copies of all video recordings of internet-based video calls, meetings, training sessions, town halls, school board meetings, and google classroom sessions in the District's care, custody, or control recorded between the dates 01-01-20 through 4-22-21.

To clarify, if the District is in possession of any digital recordings of Zoom meeting calls, Skype Sessions, Google Duo calls, Slack, Gotomeeting, etc. (any recorded internet-based video communication/presentation/instruction product) for the period of time 01-01-20 through 4-22-21 I am requesting a digital copy to be produced via internet web link.

The District search for these digitally recorded videos should include all computers and digital storage devices owned, operated, or controlled by the District.

The District search for these digitally recorded videos should also include a search of all computers and digital storage devices owned, operated, or controlled by District employees if the digital video was recorded on equipment provided to the employee by the District, or if the digital video recording contains content relating to District agency related matters.

I request the digital video files to be delivered unedited whenever possible and in the original format in which the files were digitally recorded and stored.

The requested documents will be made available to the general public, and this request is not being made for commercial purposes.

In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. **I would prefer the request filled electronically, by internet web link or e-mail attachment if available or by CD-ROM if not.**

Thank you.
