Good morning gentlemen,

I am inquiring if you have recently provided passes to any humanitarian groups for the Bates Well area, also to include near our Boundary FOB area. There have been reports of humanitarians in the area. If there has been a pass, any information you can provide about the person(s) would be helpful.

Thank you.

The only group that has a special use permit is Humane Borders. All other groups are not authorized to operate in the park. We don't usually interfere with groups searching for remains though we do not allow them to access wilderness with vehicles, etc.

Can you pass on to your LEs, there is a dark grey dodge ram in the area. License plate (b) (6)

Thank you.

(b) (6), (b) (7)(C), We had a group of folks come in for access permits on May 9th and May 29th that we suspect are associated with No More Deaths but they didn't indicate that they were planning on going to the Camino area. But that doesn't mean that they didn't. We have one Humane Borders water station on the Camino 3 or 4 miles west of the Boundary Camp.

Sid

Based on what the agents have reported, this vehicle is set and ready to deploy water stashes in multiple locations. The vehicle is still parked off road (on a bush) near the old Bates Well Camp. From the description of the vehicles with permits provided by you Sid, this vehicle may not have a permit to be out there.

Let me know if any of your officers can check it out. We will have agents in the area as well.

(b) (6), (b) (7)(C) Talking to Brian, it appears that the vehicle in question is on Organ Pipe.

Yes sir it currently is. However it has been seen for the past few days in both the Organ Pipe as well as on the Cabeza.

I'm including Kyle on this discussion. Indeed, they are not permitted within ORPI to deploy anything. Also, they must have a valid park/federal lands pass to be in the park...
