Chief Corr,

Below is an email I wrote to you and I believe it contains enough information and facts for a complaint of illegal trespass by Ms. Bullwinkel.

Attached is the document I emailed to you yesterday, Friday, which I received via US mail from the court register, prior to her illegal entry here.

I had been so busy trying to straighten out the banking matters caused by Salem Five Bank's Shawn Shiffer that I had not yet opened that court envelope sent to me prior to Wednesday morning when your police officers broke the lock on my door for an alleged wellness visit from Minuteman.

One of your officers showed me a 2-page court order I have never received from the court or from anyone else.

After Wednesday morning, I did open the US mailed court envelope I received, and I saw that Ms. Bullwinkel had no actual legal authority to be here on Wednesday.

Please accept my complaint of Ms. Bullwinkel's illegal trespass. Note that the deadbolt lock on my apt door remains broken and has not been fixed by the landlord.

Thank you. I will also print out and mail this complaint to you. I believe Ms. Bullwinkel engaged in an illegal trespass, and a breaking and entering of this apartment to illegally take photos and steal my personal banking information and will be filing a false complaint against me with a district attorney who has already prohibited me from meeting with the elder abuse person Heidi to report my brother Richard Grula's on-going financial fraud and elder abuse of my mother, which has gone on for almost 7 years now.

I believe my brother is working with others who do not like that I am a witness to public corruption that has been concealed by the media and law enforcement for decades because it involves former CIA Director GH Bush and what I believe was his embezzlement of money from stockholders of a publicly held ad agency and his attempt to conceal

his wrongdoing with a stock fraud scheme aimed at the public to generate positive press for the ad agency in the hope this would create demand for the depressed stock.

I know from my past experience with being harassed by what I now believe are his agents in two other states in their court systems that what happens is: the court does not actually function properly because they actually have no legal right to be in court harassing innocent people.

I believe that is why the court register Tara in Middlesex has not mailed to me any court order.

I have now see two forgeries of court orders, one from your office who showed me a 2-page order when no order is needed for a "wellness visit" as your officers know; and a 3-page order emailed to me by Minunteman's Kim Gardner -- but no such order has ever been sent to me by the court so this too is a forgery.

I hope you accept my complaint of illegal trespass and other wrongful conduct by Ms. Bullwinkel who did her wrongful conduct while police were acting under color of law whether the police knew they were or not, as no court order was needed for Kim Gardner's alleged wellness visit and no guardian ad litem appointment was ever accepted by Ms. Bullwinkel who therefore had no businss being here.

Attached is the court envelope and unsigned and unnotarized document I already emailed and have now emailed to you again.

I will print out this emailed complaint and send it to you via certified mail.

Chief Corr, I think you misunderstood my email.

I believe as a law-abiding citizen I have a right to make a true criminal complaint to you.

I am being framed for elder abuse and financial wrongdoing by the fake trustee on a fake trust allegedly at Ameriprise because my mother wants her money to buy a house and we filed litigation still pending in Suffolk Probate Court, for which our civil rights to due process have been violated by the Commonwealth ever since we filed, since no conference has been scheduled in almost a year now..

This past Wednesday, three people I had never seen before called your department to break down our deadbolt lock and apt door. after pounding on our door and terrorizing my mom and me for quite some time. These people were:

--a female from Minuteman Protective Services who had a business card,  
--a female attorney Ms. Bullwinkel who had no business card - and claimed to be a guardian ad litem appointed by the court, yet: the court has sent me no such notarized acceptance by her (only an unsigned unnotarized form), and  
--a male attorney David White who also had no business card - and claimed to be the attorney appointed for my mother by the court (documents sent to me by the court but no clarification on his fee as the court documents say both my mother is indigent and that his fee will be paid by her estate).

"We're here to check on your safety" claimed Kimberly Gardner from Minuteman after two officers from your department broke our lock and broke into our apartment.

My elderly mom and I were safe before they came. They had no legitimate complaint or basis for a safety check. But now the deadbolt lock is broken for 4 days and counting, and we are not as safe as before the lock was broke.

Ms. Bullwinkel took numerous photos of my personal bank statements while here. She and David White announced that I had said I wanted to show them "checkbooks." I said in response I said no such thing. ""Yes you did" they both claimed. They both lied.

Because two police officers were here, and these were two attorneys, I went and got personal information to show Ms. Bullwinkel, who then photographed recent checks, recent receipts, etc, all of which resulted from recent activity caused by Shawn Shiffer's failure to take reasonable care in his duties as branch manager, resulting in two bounced checks despite the fact my mother had far more than enough in her savings to cover those checks. I was so furious at his misconduct that I then closed the accounts, but Salem Five Bank failed to issue the checks from my mom's savings and checking in the correct title, resulting in more mishaps in me trying to set up new accounts. All of this happened simultaneously to the date when I am falsely accused of

elder abuse when there was no evidence whatsoever. Now there is a mountain of evidence of suspicious financial activity due to the misconduct of others.

What I now believe Ms. Bullwinkel - who actually has no appointment by the court - plans to now do is to take her photos she took in this apartment, after breaking and entering in by showing police a 2-page court order that does not actually exist and is a forgery, is to write a report to the DA, using the photos she obtained her, and make a false complaint about me to the DA that I am engaging in elder abuse and financial wrongdoing.

Ms. Bullwinkel should have obtained her evidence from the banks - but since she actually has no legal authority from any court, she obtained her evidence by illegal trespass into this apartment, from me, and will pass off that evidence as evidence from banks to the DA.

I would like to make a complaint to you right now of her illegal trespass because the evidence that will be used to frame me is illegally obtained and can not be used against me.

But you do not want a complaint. I believe the police report of this matter will help me understand more.

My mother and I asked for a police report the next day. We asked for it to be sent via US mail. I have a stamped copy of my request.

This report should truthfully report how many people were in this apartment in addition to the 2 police officers, as there were the 3 above. In addition, the community manager Monica and maintenance supervisor Trent suddenly showed up and took a moisture test reading and fixed the kitchen garbage disposal. That is now 7. And my mom and I were here, so that is 9 people in this apartment that Wednesday morning

If the police report truthfully mentions those who did not have a business card - attorneys David White and s. Bullwinkel - then I will know Lexington Police has not been compromised by the fake trustee.

If the police report also truthfully discloses the photo taking activity by Ms. Bullwinkel of my recent bank records, then I will be glad to see those facts.

But if the police report from Lexington Police omits mentioning the presence of all who were here, and omits mentioning the photographing of my bank records, then I have to conclude: your department has already been compromised in this matter.

Detective Brian Savage never allowed me to meet with him from Family Services in your department despite my numerous attempts to discuss this fake trustee and the situation months ago.

The Middlesex DA never responded to my faxed complaint of public corruption by Jeb Bush. I also sent that complaint to your department. The captain of operations responded.

The Middlesex DA never allowed me to set up an appointment with the person who investigates elder abuse, Heidi. I tried repeatedly, but was never given the opportunity to speak with her.

The Suffolk County DA also never responded to my faxed complaint of public corruption by Jeb Bush.

I ended up contacting the FBI about it. They never responded to me.

My mother and I were communicating with the FBI for years about the unauthorized taking of her million dollars i life savings. Nothing came of it even though we emailed evidence and offered to come in person to be interviewed.

I am realizing now that this "fake trustee" - whomever and whatever it is - can control law enforcement, the courts, lawyers, the bar association, banks, schools, and other entities.

I thought at one time this "fake trustee" was a political party or parties, or a rogue group of people including the media, or a rogue government entity, or I don't know what.

But now I am thinking: this has to be something related to the federal government since I have been harassed in 3 states. However my dad worked for the federal government and did so proudly, and I too worked for the government as a teacher, This federal govt entity harassing me is not the same federal govt my dad worked for proudly. This federal govt entity is a rogue entity bothering private citizens illegally. But no one stops them

I know this sounds odd, but I feel like the CIA is harassing me because I am correct about my belief that former CIA Director GH Bush is a corrupt crook.

If I was wrong, I think I would never have been harassed. And now I am about to be framed for crimes that are being manufactured.

So I am waiting to see the Lexington Police report to see if your department is also compromised as so many others have been.

But in the meantime I am writing and emailing to you a true complaint of trespassing by Ms. Bullwinkel who had no legal authority to be here. And the court I believe now has never actually issued any order in this matter because the complainant against me to Mlnuteman was an illegal complainant connected to Ameriprise and the matters in our pending litigation in Suffolk County,

That is why the court does not function properly. The CIA is not supposed to be harassing me in court. The CIA is supposed to leave private American citizens living lawfully in AMERICA alone.

I do not wish for anyone to have gone through what I have gone through, and for no lawful reason. I never did anything wrong in my life.

I hope your department has not been compromised. I hope I am wrong about what I believe is going on here.

But in the meantime, I believe Ms. Bullwinkel trespassed illegally into this apartment, and illegally gathered evidence to use against me because she knew she had no legal authority from any actual court of law and therefore can not go to any bank to legally obtain evidence. Instead she violated my 4th Amendment rights to obtain her evidence illegally, from me, after the police broke down the door to our apartment and handed me a forgery of a court order. What happened here on Wednesday was all done under color of law, whether the two Lexington Police officers knew it or not.

No attorney is ever going to present the truth above, They all have licenses and their job is to keep their license and do what the government tells them to do.

I am trying to do the right thing at all times. But I have rights that are being trampled on daily, by the hour, by a lot of people.

And I never did anything wrong in my life. I won a stupid writing contest. They had no jobs. It was a stock fraud scheme, OK. I walked away from it. But the politician who was corrupt who stole money from stockholders for years to benefit himself financially will not let go of the fact I walked away and exercised my right to dissent from participating in what I knew to be a hoax. I would not pretend I won a contest after I discovered the ad was fake. For that, for having integrity to walk away from a hoax on consumers, I am being framed 33 years later though I have been harassed nonstop throughout my life.

Had anything legal been going on with that hoax/sock fraud scheme, I am sure they would have left me alone. But since this harassment has gone on for more than 3 decades now, in 3 states, I have to conclude: GH Bush must have used his position as CIA director to steal millions from the stockholders of that publicly held ad agency. In my opinion, he is a crook.

In the opinion of another woman unknown to me personally, Bill Clinton is a rapist. Is she being harassed day in and day out? Because I don't see Bill Clinton being prosecuted.

And I know now: it doesn't matter if there was videotape of GH Bush stealing millions from the public. No one is going to prosecute him. He can steal my salary from my careers, my house, my inheritances, my education, anything he wants and no one will touch him. I did not know that for a long time. I realize it now.

Today I saw the movie "The Darkest Hour." It is a great movie. The People mattered. I think I should matter. I should not be framed. I should be allowed to live in peace and privacy. I never did anything wrong in my life.

Good morning,

No trespass and no theft took place. A lawful order, issued by a court of competent jurisdiction, gave a court appointed guardian the right to see your mother. Locking your door and/or refusing to answer the door was not the correct response by you.

I strongly recommend that you obtain the assistance of legal counsel.

I will ask Detective Savage to speak with your landlord about the deadbolt.

Respectfully,

Chief Mark Corr

Good morning,

I have already emailed to you the attached documents but I am emailing those 5 documents again, because your email claim to me that I was aware of and received a court order such as you described is mistaken.

I have never received from the court any such court order.

All I received from the court in the attached envelope from the court is a motion appointing an attorney for my mother, a 2-page order for an attorney, a one page unsigned and unnotarized form re Ms, Bullwinkel, and a motion impounding all documents which I believe is fraudulent because the underlying complaint was from the fake trustee on a fake Ameriprise trust we are litigating.

Without any court order sent to me via US mail from the court, my belief is I have a right to protect myself, my mother and property under the 4th Amendment which prohibits illegal searches and seizures - and we are not required to open our door, as this is a constitutional right.

Consequently, I believe I acted appropriately and well within my constitutional rights, and this was an illegal trespass and the theft of property by Ms. Bullwinkel.

I will not be emailing again as I know you have many other duties to attend to.

Respectfully,  
Susan Alyn
