

To: FBI  
Re: Fee Waiver Appeal  
FOIA #: 1539495-001

These facts are presented Inter Alia, as I was unaware that the person making this determination was seeking a presentation in lieu of the exercise of excellence in jurisprudence favoring transparency.

As shown in exhibit, your organization and the documents sought have a storied history which includes an FBI employee taking it upon himself to steal the documents and leak them due to whistleblower issues. Your agency has also been subject to litigation for failures to administer proper procedures that have resulted in deaths from a mass shooting (Parkland, FL). I feel the information as presented shows an overwhelming government interest in the agency maintaining public trust adhering to transparency and guiding its own public image or lack thereof.
